

We Have the Checks And they are "it"

Not checks on the bank; not rain checks for the ball game; not checks on frenzied finance; nor checks on any modern evils in trade. But checks in clothes—stylish, well made clothes for young men—and checks are on the top wave of popularity. Then you're not restricted to a few ordinary patterns, but can choose from a score that are right. While the designs that are most in demand are light colored, there are many dark ones for the more conservative dressers.

The materials used in these suits are the soft cassimeres and fancy worsteds which have a smooth surface, clean and brush easily and never change color. They are tailor-made, many of them hand-made, possess the style and individuality that characterizes the high class merchant tailored garments—but cost about half as much. They're cut in the most fashionable models, coats being thirty and thirty-one inches long and form fitting with a generous fullness in the skirt. The trousers are made in the popular peg top style with full hips and small bottoms. Prices range from \$10 to \$25.
